

Success RRP Workshop

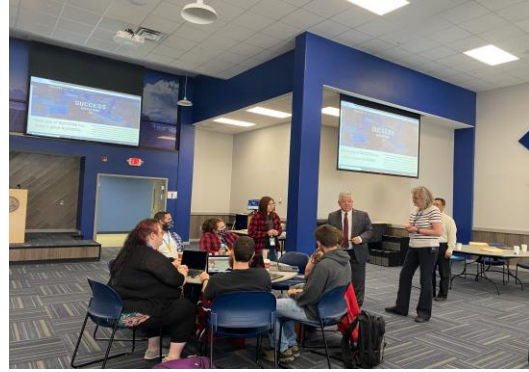

During the week of June 21, we launched the first Researcher Practitioners Partnership (RPP) workshop of our SUCCESS (Secure and Upgrade Computer Science in Classrooms through an Ecosystem with Scalability & Sustainability). Total twelve middle school teachers, all five principals of five Raleigh County middle schools and all Raleigh County middle school counselors have participated in this RPP workshop. SUCCESS is a three years long project sponsored by National Science Foundation to provide Computer Science access in Raleigh County middle schools.
